iBiz Overview

For well over a decade, DIGITALiBiz, Inc. (iBiz) has successfully provided systems engineering and integration; research and analysis; and enterprise Information Technology (IT) and program management solutions to support state-of-the art advanced transportation systems for the federal government, especially the Federal Aviation Administration (FAA).

As a trusted partner of the FAA, iBiz provides NextGen initiatives program management, concepts and systems engineering; Performance-Based Navigation (PBN) support; remote tower research and implementation; test lab support; full-motion simulator service; financial and operations management; change and release management; and Knowledge Services Network (KSN) SharePoint development and implementation support. Our work helping to improve the safety, quality, and efficiency of the National Airspace System (NAS) resulted in iBiz being named the Air Traffic Control Association (ATCA) Small and Disadvantaged Business of the Year in 2011 and 2012.

iBiz Corporate Capabilities

We provide strategic and tactical services to support mission objectives through the following capabilities:

> Business Technology Solutions

> Communications Strategy & Outreach

> Operations Research & Analysis

> IT Systems Engineering & Integration

> Program & Portfolio Management

iBiz Aviation Service Areas

> PBN Initiative: Established on RNP (EoR)

> NextGen Concepts & Systems Engineering

> Air Traffic Management (ATM)

> En-Route & Oceanic Integration & Interoperability Support

> Remote Tower Concepts, Research and Implementation

> NAS Flight Standards Support

> Air Traffic Safety Management

Founded in 2002, iBiz is a Small Disadvantaged Business headquartered in Rockville, MD. We support FAA onsite at the FAA Headquarters in Washington, DC; The William J. Hughes Technical Center in Atlantic City, NJ; The Mike Monroney Aeronautical Center in Oklahoma City, OK; The Air Traffic Control System Command Center in Warrenton, VA; and Volpe, The National Transportation Systems Center in Cambridge, MA.

Key FAA Customers

> Flight Standards Service - AFS:

Assist in the development of regulations and policy recommendations governing instrument flight procedures and safety, capacity, and efficiency improvements as well as supporting aviation weather programs to improve flight operations, standardization, and aviation safety within the U.S. and international airspace systems.

> The NextGen Organization - ANG:

Established on Required Navigation Performance (RNP) (EoR), air traffic management, IT, and business & financial operations support to the ANG Portfolio Management & Technology, Management Services, and NextGen Performance & Outreach Offices.

> Integration & Interoperability Facility (IIF) - ANG:

Provide support to both the En-Route and Oceanic IIF at the FAA William J. Hughes Technical Center (Atlantic City, NJ). Engineering services include proof-of-concept studies, prototype development, system-level integration and verification, user evaluations, scenario development, Human-in-the-Loop (HITL) simulations, air traffic and airway facilities familiarization, and system development and maintenance.

> ATO Program Management Office (PMO) - AJM:

Program and project management, administrative web enterprise solutions, and business and technical analytical support. iBiz, in partnership with the FAA, helps the PMO meet strategic & tactical performance goals.

> National Enterprise Operations (NEO) - AJW:

Software Development Life Cycle (SDLC) support, application development, portal and website development, and business process re-engineering. iBiz provides timely status of the NAS infrastructure.

> Capital Expenditures Office - ABP:

Business and financial management support in the areas of budget planning & analysis, and IT systems utilized by ABP to accomplish their mission, goals, and objectives.
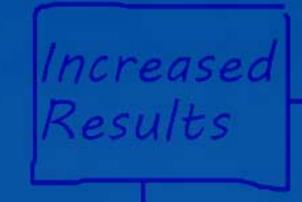

eFAST MOA

The Electronic FAA Accelerated & Simplified Tasks (eFAST) Master Ordering Agreement (MOA) was developed by the FAA to support its operations for 2010 and beyond. As the FAA's preferred small business contracting vehicle, this fast and easy mechanism allows you to procure a broad range of comprehensive professional and support services. Through eFAST, iBiz provides a broad range of services in the following functional areas:

> Air Transportation Support (ATS)

> Business Administration & Management (BAM)

> Engineering Services (ES)

> Computer/Information Systems Development (CSD)

> Computer Systems Support (CSS)

> Documentation & Training (DT)

> Research & Development (R&D)

Let us show you how to easily streamline your procurement by using eFAST, FAA's preferred acquisition vehicle for small business solutions. Contact us today!
